# Code with Shiki and The unnamed theme

The code highlighting is powered by Shiki and The unnamed - VS Code theme

```
interface User {  
  id: number  
  firstName: string  
  lastName: string  
  role: string  
}  
  
function updateUser(id: number, update: Partial<User>) {  
  const user = getUser(id)  
  const newUser = { ...user, ...update }  
  saveUser(id, newUser)  
}
```

# Table

Title	Description	Default
<code>`layout`</code>	The layout to use for the slide	<code>`default`</code>
<code>`theme`</code>	The theme to use for the slide	<code>`the-unnamed`</code>
<code>`highlighter`</code>	The highlighter to use for the slide	<code>`shiki`</code>
<code>`background`</code>	The background to use for the slide	<code>`none`</code>

**Info:** This is a note

# What is Slidev?

Slidev is a slides maker and presenter designed for developers, consist of the following features

-  **Text-based** - focus on the content with Markdown, and then style them later
-  **Themable** - theme can be shared and used with npm packages
-  **Developer Friendly** - code highlighting, live coding with autocompletion
-  **Interactive** - embedding Vue components to enhance your expressions
-  **Recording** - built-in recording and camera view
-  **Portable** - export into PDF, PNGs, or even a hostable SPA
-  **Hackable** - anything possible on a webpage

# Code

Use code snippets and get the highlighting directly!

```
interface User {  
  id: number  
  firstName: string  
  lastName: string  
  role: string  
}  
  
function updateUser(id: number, update: Partial<Use  
  const user = getUser(id)  
  const newUser = { ...user, ...update }  
  saveUser(id, newUser)  
}
```
